

## Required Tools

measuring  
tape

drill with  
2mm bit

phillips bit or  
screwdriver

pencil

knife

## Included Hardware

Only relevant hardware is included with your delivery.

Inside (Top Fix)  
42mm Snap-in  
Installation Bracket

Outside (Face Fix)  
75mm Snap-in  
Installation Bracket

Track  
(32x14mm)

Runner

Hook  
(attached to fabric)

Track End Cap

Track Stop

Track End Holder

Screws for Wood,  
Metal or Wall  
Plugs

Wall Plugs for  
Brick or Cement

## 1

## Installation Brackets for Track

### Installing inside the window frame...

- At the top of the window frame, measure 150mm in from each side and mark with a pencil, this is the centre of the outer brackets.
- Measure 33mm back and mark where the screw will go.
- We recommend drilling pilot holes for the screws using a 2mm bit.
- Fix the brackets into position using 1 screw for each bracket.
- Ensure all brackets are aligned and perpendicular to the window opening.
- If more brackets are supplied, space them evenly between the first 2 brackets.

### Installing on the ceiling...

- Ensure you have a solid mounting surface to screw the brackets into preferably timber, brick or metal.
- Measure 150mm in from each side of where you want the track to sit and mark with a pencil, this is the centre of the outer brackets.
- Place the brackets in position and mark where the screw will go.
- We recommend drilling pilot holes for the screws using a 2mm bit.
- Fix the brackets into position using 1 screw for each bracket.
- Ensure all brackets are aligned and perpendicular to the window opening.
- If more brackets have been supplied, space them evenly between the first 2 brackets.

### Installing outside the window frame...

- On the Architrave:** Measure 150mm in from each side of the top of the architrave and mark with a pencil, this is the centre of the outer brackets.
- Place brackets in position (generally flush with the top of the architrave) and mark where the screws will go.
- We recommend drilling pilot holes for the screws using a 2mm bit.
- Fix the brackets into position using 2 screws for each bracket.
- If more brackets have been supplied, space them evenly between the first 2 brackets.
- On the Wall:** Ensure you have a solid mounting surface to screw the brackets into, preferably timber, brick or metal.
- Ensure the track sits evenly each side of the window opening.
- We recommend using a spirit level to align brackets.
- Measure 150mm in from each end of where you want the track to sit and mark with a pencil, this is the centre of the outside brackets.
- Place brackets in position and mark where the screws will go.
- We recommend drilling pilot holes for the screws using a 2mm bit.
- Fix the brackets into position using 2 screws for each bracket.
- If more brackets have been supplied, space them evenly between the first 2 brackets.

Installation continued...

## 2 Install Track

### **Left or right stack (one curtain):**

- Remove the track end cap at the stack end of the track (the stack end is where the curtain sits when fully open).
- Insert the runners into the track and insert the last runner into the track end holder, then insert the track stop into the track, and then the end holder.
- Replace end cap and tighten screw.
- Slide the track stop and the end holder against the end cap and tighten track stop screw.

### **Centre opening (two curtains):**

- Remove the track end cap at the left hand end of the track by loosening the screw.
- Insert one set of runners into the track and insert the last runner into the end holder,
- then insert the track stop into the track,
- and then the end holder.
- Replace end cap and tighten screw.
- Slide the track stop and the end holder against the left end cap and tighten track stop screw.
- Remove the track end cap at the right hand end of the track by loosening the screw.
- Insert the other set of runners into the track and insert the last runner into the end holder,
- Then insert the track stop into the track, and then the end holder.
- Replace end cap and tighten screw.
- Slide the track stop and the end holder against the right end cap and tighten the track stop screw.

- **Place the track in position by first aligning the front of the bracket with the lip on top of the track, then push the back of the track up to snap into place. Alternatively, the screws can be removed from the plastic snap-in and manually screwed into place.**

## 3 Install Curtain

- Hold curtain in front of the end of the track that the curtain will stack too.
- Attach the first hook to the end holder, then attach the rest of the hooks to the runners.
- If two curtains, do the same for the second curtain starting from the other end of the track.
- Your curtain is now ready for use.

Note: you can snap off the unused part of the end holder.

Great Job... Enjoy your new Veneta Curtains!

Operating your  
Curtain

- The Veneta Curtains are hand drawn and slide by moving the fabric to the desired position.
